A Holistic Education

We help to develop the always-valued all-rounder by encouraging pupils to do different things and to relish the variety that exists here

Learning

Classroom

We are academically ambitious and our results speak for themselves.

"We believe that when a child becomes good at one thing, they quickly become good at another. It is, of course, all about confidence. Confidence to say 'I can'. This belief in yourself, and others' belief in you, is what forms the whole. That is what education is all about. And that is what Cheltenham College is all about too – a journey beyond and above."

Nicola Huggett, Head
